*A **Revolutionary** Counted Cross Stitch Product.*
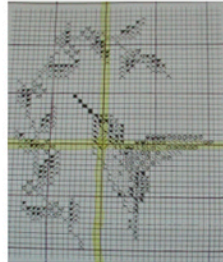

How It Works

All previous cross-stitch aids are geared toward keeping one's place on the pattern.
Easy-Count Guideline™ is the first product to keep the stitcher's place on the fabric itself,
reducing counting time and improving speed.

Step 1: The pattern

Step 2: The fabric with the Easy-Count Guideline™ inserted

Step 3: The addition of each of the colors to the project

Step 4: The removal of the Guideline from the project

Step 5: The completed project
